Socorro Rebelo

Data Scientist | Cybersecurity & Security Analyst | Generative AI
Specialist | NEBOSH Certified Health & Safety | Microsoft IT Support
Specialist | Global Leader with 30+ Years Experience
Lisbon Metropolitan Area

Summary

Data Scientist and Microsoft-certified IT Support Specialist with hands-on Generative AI and automation expertise (Claude, MCPs, n8n, Python). Recently completed an Executive PG Certificate in Data Science & AI (IIT Roorkee) and delivered EDA, machine learning models, and Power BI/Tableau dashboards as a Business Data Analyst. Brings 20+ years of prior leadership experience in operations, risk management, and compliance across corporate and maritime security environments, including directing security operations for 6,500 guests and 2,500 crew aboard Royal Caribbean's Allure of the Seas. Combines strong new technical foundations with sound judgement under pressure, stakeholder communication, and process discipline.

Experience

Freelance IT & Cybersecurity Consultant | Data Analyst | Generative AI Specialist |
August 2026 - Present (2 months)

- Deliver remote IT support (Windows/Mac troubleshooting, VPN setup, Microsoft 365 administration) and network/security hardening for SME clients.
- Build Generative AI automation workflows and custom AI assistants (Claude, MCPs, n8n), including voice bots and demo-day prototypes for startup clients.
- Design Power BI/Tableau dashboards and run data cleaning, feature engineering and statistical analysis for business clients.
- Set up ITSM ticketing workflows and SLA reporting for small teams.

Unified Mentor Private Limited
Business Data Analyst
February 2026 - Present (8 months)
India

- Ran exploratory data analysis in Python (Pandas, NumPy, Matplotlib, Seaborn) to surface trends and actionable insights for stakeholder reporting.
- Wrote SQL queries for extraction, cleaning and transformation supporting business reporting and decision-making.
- Built interactive Power BI and Tableau dashboards presenting KPIs and customer behaviour metrics.
- Applied machine learning techniques (Gradient Boosting, Logistic Regression, Clustering, Sentiment Analysis) to improve risk assessment and customer satisfaction strategies.

Self Employed

Security Advisor

August 2025 - February 2026 (7 months)

Dar es Salaam, Tanzania, India, Mumbai

- Delivered data-driven advisory reports combining SQL, Power BI, Python and machine learning for risk management and compliance decision-making.

Royal Caribbean International, Ultimate Security, Knight Support

Earlier Career — Operations, Risk & Security Leadership

August 2003 - February 2022 (18 years 7 months)

Dar es Salaam, Tanzania & USA

- Commercial Security Officers Supervisor, Royal Caribbean Cruise Line (Miami, FL) — directed security operations for 6,500 guests and 2,500 crew aboard Allure of the Seas; led emergency drills, crowd control and crisis response.
- Special Project Manager, Ultimate Security (T) Limited — secured diplomatic sites and expatriates; commended by the British High Commission for service quality and contract retention.
- Operations General Manager, Knight Support (T) Limited — designed risk frameworks for government and private-sector clients; improved cost efficiency and client retention through data-driven analysis.
- Corporate Security Manager, Mohamed Enterprise (T) Limited — oversaw security operations across 10 manufacturing units and 24 branches nationwide; advised senior management on compliance and legal matters.
- Additional roles: Security Specialist (Insight Consulting), Management Aide (Self-Employed), Marketing Executive Assistant (Royal Milk Products).

Indian Air Force

Corporal

October 1987 - July 2003 (15 years 10 months)

New Delhi

- Operated surveillance and communication systems, applying technical and analytical skills during Operation Kargil.
- Assisted in disaster relief during the Latur earthquake, demonstrating collaboration, resilience, and administrative coordination.
- Produced meticulous reports and maintained ethical standards under high-pressure environments.
- Operated surveillance systems and supported disaster relief operations.
- Applied safety and risk management principles in high pressure environments.
